To search for specific names, type keywords into the search bar in your PDF reader. If a keyword search doesn't turn up expected results, it is recommended that you also scroll down into the alphabetical listings to search for the name, as the text-recognition software is not perfect.

The table of contents below can also give you an idea of where to look within the document for other kinds of information listed in the directory, like street guides, government listings, and advertisement indices. Note that the PDF page number and the original directory page numbers are different, because the color-printed advertisement pages in the directories were not numbered.

Table of Contents:

<u>Description</u>	<u>PDF page number</u>
Residential directory listings	2 – 1513
Index to Municipal Register	1514 – 1515
Municipal Register	1516 – 1533
Street and Avenue Directory	1534 – 1563

LAIN'S BROOKLYN CITY DIRECTORY

1884-85.

NOTICE.

Our Advertising Patrons may be found by referring to the Index.

We feel justified, after many years' acquaintance, in saying we believe them to be among the very best in their vocations in the cities of Brooklyn and New York.

FLORIDA and the SOUTH.

WAYCROSS SHORT LINE.

THE ONLY ROUTE TO ALL WINTER RESORTS,

AND THE

FAST MAIL LINE

TO

FLORIDA, NEW ORLEANS, SOUTHERN LOUISIANA, TEXAS,
MEXICO, SOUTHERN CALIFORNIA, Etc.

The Plant System, embracing the Charleston & Savannah, and Savannah, Florida & Western Railways, occupies an important position in the great Through Line between the North and the South and South-West.

These lines are laid with steel rail, equipped with all modern appliances for safety, speed, and comfort, and offer unequaled facilities to the traveling public.

For Florida and New Orleans, elegant Pullman Buffet Sleeping Car service, with but one change between New York and Jacksonville, and New York and New Orleans, connecting at New Orleans with Through Lines for Texas, Mexico, etc.

At Waycross, Ga., diverging point for Jacksonville, where connection is made with the Jacksonville, Tampa & Key West Railway for Palatka and intermediate stations, with the Jacksonville, St. Augustine & Halifax River R.R. for St. Augustine, with Peoples Line and DeBary-Baya Merchants Line for all points on and via St. John's River; making the following connections:

At Tocol with St. John's Ry. for St. Augustine.

At Palatka with Florida Southern Ry. for all points on and via that line.

At Astor with St. John's & Lake Eustis Ry. for Fort Mason, Eustis, Tavares, etc.

At Sanford with South Florida R.R. for Maitland, Orlando, Kissimmee, Tampa, at which point connection is made with Gulf Steamers for Manatee, Palma Sola, Braidentown, Anclote, and all points on the Gulf Coast.

WEBB'S ALCOHOL AND COLOGNE SPIRIT } ESTABLISHED 1835.
J. A. WEBB & SON, 165 PEARL STREET, NEW YORK.
 Used by Druggists and Manufacturers throughout the world. Send for Quotations.

BATES & JOHNSON,
Successors to WYLLYS H. WARNER,
Steam Heating Apparatus,
114 LEONARD ST., NEW YORK.

NO OFFICE IN BROOKLYN.

TELEPHONE CALL, MURRAY 407.

The attention of architects and owners of buildings, and the trade generally, is directed to our specialties for warming buildings by steam and especially to our house-heating boilers and automatic regulating apparatus,

We are prepared to furnish experienced men to erect apparatus in any part of the United States, and to do work of any description where steam is used for heating, either with high or low pressure, or for power.

Parties wishing our estimate of cost, and specifications for work, should, if possible, furnish a tracing of the plans of the building to be heated, stating the height of each story, and the height in the cellar available to set a boiler, the point of the compass to which the building faces, and the material of which it is constructed, the range of the thermometer in winter, and such general information as may influence the temperature of the building. When not convenient to furnish tracing of plans, send the accurate dimensions of apartments to be heated.

Also state the dimensions of the chimney flue to be used for the boiler.

ESTABLISHED 1838.

FINE CARRIAGES AND ROAD WAGONS.

We have received the following letter from General McCLELLAN, in regard to the

VERTICAL STEEL PLATES

Used in the Axle Beds of all our Trotting and Road Wagons:

NEW YORK, June 1st, 1871.

GENTLEMEN:—I have carefully examined your Patent Vertical Steel Plate Axle. I find that the addition of the Vertical Plate renders the Axle about *two and a half* ($2\frac{1}{2}$) times as stiff as it would be without it.

Very respectfully,

GEO. B. McCLELLAN.

[*From the Union of March 1, 1884.*]

A YEAR'S ACHIEVEMENT.

The first year of THE UNION under its new management closes to-day. On the first Monday of last March a transformation was effected in the conduct and character of THE UNION-ARGUS, which placed it before the Brooklyn public as, virtually, a new candidate for their favor. That the reconstructed UNION has not disappointed public expectation has been shown in the extraordinary development of its circulation and advertising within the last twelve months. Progress so rapid and so well sustained is almost unique in newspaper history, and its continuance for another year will result in placing THE UNION among the foremost newspapers in the country.

These results have not been attained without well-directed enterprise and a liberal expenditure of capital. They cannot be expanded and developed without continued recourse to the same agencies. The press facilities of THE UNION have been taxed to their utmost long before the time when such a contingency could have been reasonably looked for, and at the present moment the only obstacle to the rapid increase of its circulation is the difficulty of supplying the demands of news-dealers with sufficient promptitude. The very elaborate and efficient double press, which Messrs. R. Hoe & Co. are engaged in making for THE UNION, will hardly be ready for use till the end of next summer, but nothing will be left undone to push the work forward.

The expansion of the press facilities of THE UNION will involve a considerable enlargement of its size, and various notable improvements in its form. Marvelous as has been its progress during the first year of its new management, its second may, therefore, be expected to show a rate of progress even more surprising. Our friends may be assured that the efforts by which success has already been achieved will be directed in the future to making THE UNION in all its departments a still better newspaper. In journalism, standing still means retrogression, and we are as well aware as our most exacting critics can be, that a great deal remains to be done to make THE UNION in all respects worthy of its constituency. A more intelligent, critical and discriminating public than the newspaper readers of Brooklyn it would be hard to find in the country, and to that constituency, without distinction of age or sex, THE UNION addresses itself. It is only a question of time, and not a very long time at that, when the majority of this constituency will be numbered among its readers.

If any reader, whose eye shall meet this, wants a cheery, bright, religious paper, we advise him to send three dollars at once for THE CHRISTIAN AT WORK, and give it a trial. THE CHRISTIAN AT WORK is non-sectarian; that is, it does not confine itself to the interests of one denomination, but gives the news of all. It has valuable Sunday-School Lessons; its Editorial pens traverse all subjects of current interest; its Family and Home Departments are as peculiar as they are unexcelled; it gives the latest news from the Mission fields. It also has a capital Farm Department, which gives it additional interest to all interested in rural life.

THE CHRISTIAN AT WORK is the healthiest, the brightest, the most stimulating, the best religious weekly published. Try it in your home for a year, and see how the old folks and young folks and the middle-aged folks like it. Boys and girls reading THE CHRISTIAN AT WORK will not seek the flashy literature of the day; and they will learn that religious reading need not be dull reading. Try THE CHRISTIAN AT WORK, and see if it is not so.

MARMONT B. EDSON'S Life-Saving Invention

For universal use in connection with Air, Oil, Steam, and Water, either upon Steamboats, Steam Yachts, Locomotives, Breweries, Mills, Manufactories, and City Water Reservoirs, Pipes, etc., etc.

THE TIME AND PRESSURE RECORDING GAUGE, and "High Pressure Alarm," shown in the cut, affords a true record of all changes in the pressure upon a strip of paper, and defines the exact time of such occurrence.

A Gong will ring upon the Gauge, also in the Engine Room or elsewhere if desired, the instant any fixed limit is reached.

Engineers are prompted to take care and avoid accidents, and human lives will be saved by their use.

For Sale by the Sole Proprietors,

The Edson Recording and Alarm Gauge Company,

91 LIBERTY ST., NEW YORK.
